Erba Lachema s.r.o.

ADVISORY NOTICE

Erba Actime

Ref. No.: EHL00003 / EHL00004
Pack size: 6 x 5 ml / 10 x 5 ml

Dear Customers,

We hereby inform you that we are now launching our improved kit for determination of the activated partial thromboplastin time (APTT). The following changes have been implemented in the kit.

1. Optimisation of the composition

The assay has been modified to improve reagent performance. Key details are outlined below:

- The principle of the determination is the same (silicate activator).
- The working instructions for manual (tilt tube) testing have changed. Please read the working instruction carefully.
- ECL instrument protocols have not been changed.
- The change in composition will result in slightly shorter clotting times. Local reference ranges should be reviewed before the introduction of the new reagent lots.

2. New APTT values for Erba Control N (Plus) and Erba Control P (Plus)

Because of changed composition, you can expect different results in control plasma.

New values for Erba Control N (Plus) and Erba Control P (Plus) - see table.

APTT						
Control material	LOT	Unit	ECL 105/412		ECL 760	
			Value	Range	Value	Range
Erba Control N	2002180 2001110 2002148 2003146 2007060 2003035 2004011	Sec	28.5	22.8 - 34.2	27.7	22.2 - 33.3
		Ratio	1.01	0.86 - 1.16	0.98	0.84 - 1.13
